Summary

Fourth-year computer science student and web developer. I studied many programming languages at college and took a Digital Egypt course. I have built complete web platforms, including a movie platform and a product showcase platform. Strong with Word, Excel and Microsoft Office.

Technical skills

- **Frontend:** HTML, CSS, JavaScript, React, Angular / Vue, Bootstrap / Tailwind
- **Backend:** Node.js / Express, PHP / Laravel, Python (Django / Flask), Java / C# (.NET)
- **Databases:** MySQL / PostgreSQL, SQL Server, MongoDB, Firebase
- **Tools:** Git, GitHub, REST APIs, VS Code, Figma
- **Office:** Microsoft Word, Excel and Office

Projects

- **Movie platform.** A web platform for browsing and exploring movies through a clear, easy-to-use interface.
- **Product showcase platform.** A platform for displaying products in the style of large online stores such as Amazon.
- More projects are available on request.

Education and training

- **Bachelor's in Computer Science**, CHI, Year 4, expected graduation 2027. Studied many programming languages and computer science fundamentals.
- **Digital Egypt course.** Extra training beyond college to deepen my technical skills.
